

Feel His Presence at work & study

He is everywhere; you just have to tap into Him. You have to really feel Him. He is only in 'Parthi' in physical form. He is actually here. You have to know it. Then you will feel Him hugging you, holding your hand all the time. When you go to work, don't think, "Oh Swami, You are at home or in 'Parthi'". Think that He is sitting right next to you, just with you, He is playing with you. If you practice doing this, life becomes perfect. If you go to university, Swami is there. Anywhere you are, feel that Swami is with you. That's when you know you are experiencing divinity. He is Hridayavasi – resident of the heart.

Dedicate your life to Him

Last year in an interview I told Swami, "Swami, I want to dedicate my life to loving and serving You". I had waited 4 - 5 years to tell Swami this. Swami looked at me and started crying. He held my hand and said, "This is what I want. Not enough people are doing this". We all wait for Swami to tell us what to do. Now is the time to tell Swami, "I want to do this for You. I want to become a part of Your mission. I want to love You. I want to serve You." His happiness knows no bounds when you do this. I was so emotional when He started crying with tears of joy. Then He said, "Go and tell this to everyone, that all that Swami wants is love, love, love". But what is that love? If you love your father, mother, sibling, partner, wife/husband, friend, you want to make them happy. How can you make Swami happy? By really living His teachings.

Become beacons

Become beacons of a matchstick which blows out. and on. Keep giving light get yourself lit up again light. Keep doing this. from you. That's why A leadership workshop about leaders. It's about Ideal, warriors of Sai. nothing from you. I love encompasses a lot of Swami's ideals. You as that love. You have to be whatever position you hold Before you go out and Sai is, why you are in the role why He as chosen you. Like in life. The most important thing is to try, keep trying and keep working on it. Don't take your roles lightly. Give your best, your heart, soul and everything you have to **being that love.**

Self Transformation

The challenge for you as leaders is to work on yourself to become Swami's light and love and spread Swami's message in this way. So work on yourself. That's what Swami wants. Youth groups will come and go, life will come and go but at the end of it all only you and Swami remain. Nothing else. It's about self transformation.

Love Sai, don't stop

Just love Swami. If you love Him, He will love you back. You will know when you love Swami. If you love Him, He responds. You love your mum and dad with unconditional love. You have to love Swami like that. When I told Swami, "I want to dedicate my life to loving and serving You". He cried. That's what God wants. He said "That's come from your heart and I know it". If it's just lip service then He will know it too. You will know when you have moved Him as He resides in your heart. You have to start experiencing Him everywhere.

of Swami's Light

Swami's light. Not like Be like a candle which can go on to everyone. Then go to Swami, and return to spreading That's what Swami wants you are in this position. is not about learning you becoming perfect, Swami says "I want just want you love". That things. It encompasses leaders have to be that example in and motivate others. motivate others, know who He has given you and you all, I have struggled

Swami – perfection in every action

Swami's wonderful physical form is giving us such practical advice. It's unbelievable that He comes down to our level, with advice, guidance and direction and shows us by example how to live. Once before an interview I was sitting outside the interview room and I saw Him preparing the room for our arrival. He tidied up the room and turned the fan on. He looked around the room making sure everything was ready for us, adjusting things where needed and then He set up His chair. Can you imagine the Lord of the Universe doing all this just for us?

Sai, my sathsang. S.M.S.

Swami said to me once, "You SMS too much. You have too many contacts in your phone. There are 3,217 contacts in your phone". I checked this and He was right. He then said, "Tell me why this is good for you. It's not good for you. Only have contact with your family and close friends, with others keep a distance and just say, "Hello, how are you and good bye". Tell me who your friends are and I will tell you who you are, avoid bad company". What is sathsang? One definition is to be with good people. But the real definition of sathsang is "Sathyanarayana Sang" – "Sai Sang" – You and God. It's about your inward journey.

What reflection are you on Swami?

Swami said, "I am just a reflection of you my devotees". So what reflection are you of Swami? Tests will come. When you are close to the fire, you will feel the heat. I am a living example of this. You'll feel the heat and get burnt everyday. I make mistakes every day. But you have to keep going even when you have difficulties. Tell yourself, "I am going to progress with self confidence and strength". Where does your strength come from? It's from Swami alone.
